Summary

Contract Full-Stack Developer with 3+ years of experience shipping production Next.js applications for clients, from architecture to deployment. Maintainer of an open-source UI library (97 components, 4M+ views on 21st.dev). ajayhtml.online

Skills:

Languages: TypeScript, JavaScript, Python | Familiar with C++, Rust
Frontend: React, Next.js, Angular, React Native, Three.js, GSAP, Framer-Motion
Backend & DB: Node.js, Laravel, Prisma, PostgreSQL, MongoDB, Better-Auth, REST APIs
DevOps: AWS (EC2/S3), Docker, CI/CD, Linux, Git, Vercel, Cloudflare (R2)
AI: LLM integration, Inngest, pi, n8n

Experience

Contract Full-Stack Developer - Cnippet *Jan 2025 – Present*

- Delivered fast, SEO-optimised client web apps end-to-end on Next.js, TypeScript, and Prisma/PostgreSQL, including a multi-tenant venue management system handling ~100k DB operations/month on Prisma and Vercel free tiers.
- Built Cnippet's product suite (packages, dashboards, developer tools, UI library), published on 21st.dev with 4M+ combined views.

Contract Web Developer - Elite Estates *Sep 2025 – Dec 2025*

- Migrated airportporterservice.com from Angular to Next.js to fix poor search visibility; the site now ranks #1 for "airport porter service."
- Built easylease.services, a real-estate marketplace for listing land, apartments, and flats, with owner inquiries routed through an admin panel and real-time chat.

Contract Full-Stack Developer - REDSAN *Oct 2023 – March 2025*

- Delivered client full-stack projects (gaiaspace.co.in, grihya.in, somarasa.co.in, maxpowersolution.co.in, xxxrated.in), owning design handoff, development, and deployment.

Projects

Cnippet - Developer Ecosystem Live
Tech Stack: *Next.js 16.3, TypeScript, Turborepo, Better-Auth, Prisma, PostgreSQL, Cloudinary, Razorpay, Mux, MDX, Cloudflare R2*

- Built a developer ecosystem (UI components, Blocks, Dashboard, Stack, Helm, CDN tooling) in a Turborepo monorepo.
- Engineered **Stack** workflows for integrating common application infrastructure and generating Prisma-based admin interfaces with CRUD, permissions, and audit capabilities.
- Built MDX content and asset infrastructure on Cloudflare R2, Cloudinary, and PostgreSQL for docs and platform services.
- Cnippet Studio hits 21st.dev with 2.6M+ views, 10.4K bookmarks across Cnippet's components and blocks..

Ui.Cnippet - UI Component Library Live
Tech Stack: *Next.js 16.3, TypeScript, Turborepo, Prisma, PostgreSQL,*

- Built and open-sourced (MIT) a library of 97 accessible components and 40+ motion variants, installable in one command via the shadcn CLI.
- Published library on 21st.dev with 2.3M+ views, 10.4K bookmarks and 200 components..
- Shipped a registry-backed CLI install flow that resolves dependencies and writes editable source into the project, with no wrapper package or lock-in.

Cnipbotics - Robotics Ed-Tech Platform Live
Tech Stack: *Next.js 16.3, TypeScript, Turborepo, Better-Auth, Prisma, PostgreSQL, Cloudinary, Razorpay, Mux, MDX, Cloudflare R2*

- Collaborated with a cross-functional team to build a CBSE-aligned STEM/robotics learning platform for schools within a Turborepo monorepo**.**
- Architected a granular **Next.js caching** using cache profiles, and tag-based invalidation to minimise redundant server-side data fetching across shared packages.
- Integrated **Mux** for adaptive video streaming, Cloudflare R2 for MDX-driven course content, **Cloudinary** for optimised media delivery, and **Razorpay** for secure course payments.

Education:

B.Tech in Computer Science (CSE)
Uttaranchal University Dehradun | August 2022 - May 2026 | **CGPA:** 8.5/10

Higher Secondary (CBSE)
Doon Bhawani International Dehradun | 2022 | **Percentage:** 87.8
